Anti-Alcohol with HepatoProtection Complex

Supports healthy liver function

Item #02140 • 60 capsules

A study in the journal *Alcohol* demonstrated how antioxidants help to maintain a healthy brain.\(^1\) Another study in the journal *Artery* stated:

“*N*-acetyl-cysteine, an analogue of the dietary amino acid *cysteine*, binds acetaldehyde, thus blocking its damaging effect on physiological proteins.”\(^2\)

Anti-Alcohol with HepatoProtection Complex provides broad-spectrum nutrients designed to suppress free radicals, neutralize alcohol metabolites (such as acetaldehyde),\(^3\)\(^-\)\(^6\) and support healthy liver function.

In addition to vitamin B1, vitamin C, N-acetyl-L-cysteine, and benfotiamine, this formula’s HepatoProtection Complex provides potent doses of these novel antioxidants:

- Chlorophyllin, an agent that protects the integrity of DNA.
- Leucoselect\(^\text{®}\) grapseed extract, silymarin (from milk thistle), and *trans*-resveratrol, three hepatoprotective agents that aid in reducing compounds from potentially toxic xenobiotics and protecting cells from oxidative stress.
- Picroliv\(^\text{®}\) *Picrorhiza kurroa* root extract contains antioxidant kutkins that scavenge alcohol-induced excess free radicals and stimulate regeneration of cells (hepatocytes).
- Clovino\(^\text{TM}\) clove bud extract has been shown to protect against oxidative stress and inhibit inflammatory factors.

**References**

**Dosage and use**

Adults age 21 and over, take one capsule with each alcoholic beverage, up to five capsules per day, or as recommended by a healthcare practitioner. Five capsules may also be taken at once before or after consuming alcoholic beverages.

**Caution.** This product does not prevent or reduce the mental impairment effects alcohol induces. Do not drink and attempt to drive or operate equipment or heavy machinery. Consult your healthcare provider before use if you are taking medication.
